

DDP Waiver Agreement (BLANKET WAIVER)

Client: _____

By completing this form you acknowledge that your master will be sent to us through FTP for replication. Once the data is received and tested it will move straight to the stamper creation and replication stage. Files must be supplied as DDP, DDPi or ISO. The file must be saved in a .zip or .rar format. The file must be clearly marked "xxxxMASTER" where the "xxxx" represents the title of your project.

Before creating master files and sending through FTP, be sure you properly understand the technology. Feel free to contact your Account Manager should you have any questions.

There will be no test discs burned and sent back to you for verification before replication. If you require a test disc please communicate with your Account Manager regarding any extra charges or time delays associated with this approval process.

If you are not comfortable with this process we advise that you send a physical master (disc) instead of using the FTP.

Company Name: _____

Signature: _____

Print Name: _____

Date: _____

To avoid any production delay, please complete and return this form immediately via fax to your account manager.
